Job Description

Summary

McKinley & Rice is looking for a Senior React Developer.

We want the best players in the professional market.

- Location: Office 602 Ithum Tower A, Sector 62, Noida
- Requirements: (1) At least 3+ years of experience, (2) Bachelor's.

Senior React Developer

Core

We are looking for React developers *who are true engineers*. We want people who believe and take pride in their work. We want people who enjoy working in the most exciting field of the 21st century. We want people who are driven to compete at global standards with other tech companies around the world.

What you will be doing:

- Will be responsible for ensuring that front end development is done according to design specifications.
- Will be in charge of creating React components and integrating them with APIs.

What we are looking for:

- Fluency in English (Required)
- Fluency in building React components (Required)
- Fluency in working with REST APIs (Required)
- High intermediate in Redux (Required)
- High intermediate in ServiceWorker (Required)
- At least 2 years of work experience (Required)
- Capacity to work according to global standards (Required)
- Minimum bachelor's degree (Required)

Knowledge of the following is optional, but will be reflected in negotiations:

Note: McKinley & Rice follows by default the MERN stack.

- React Native (Optional)
- PSD to HTML/CSS Conversion (Optional)
- JQuery (Optional)
- Bootstrap 3 + 4 (Optional)
